Technologies

- HTML5
- CSS3 / SASS
- JavaScript ES5/6
- Ajax / Fetch API
- React
- Git
- Gulp

- Adobe XD
- Photoshop CS6

Self-taught Front End Developer with a passion for technology and it's never-ending growth. I have always enjoyed creating and problem-solving which is why I decided to take up programming as a hobby which will hopefully lead to a full-time job. Although I am mainly focused on the Front End my goal is to become a Full Stack JavaScript Developer.

I hold a clean Full UK Drivers License. Willing to relocate.

Experience

Aug 2018 - present

Customer Service Assistant
Wilko

Within my current job I am responsible for maximising sales and providing excellent customer care to the shop's customers.

Requirements
- Cash Handling
- Customer Service
- Stock Management
- Working in busy environments

Jan 2018 - Feb 2018

IT Repair Technician (Placement)
KnowHow Currys PC World

As part of my college course I was required to source and apply for a work placement within a computing industry.

Requirements
- Meeting deadlines
- Diagnostic & repair of laptops
- Health & Safety guidelines
- Working as part of a team
